## WORK EXPERIENCE

### WEB PROJECT MANAGER

University of Houston | Jun 2023 – Present

While at the University of Houston, I spearheaded a diverse range of projects showcasing my adeptness in web development and digital design. From crafting captivating landing pages to tackling intricate technical endeavors like an email signature generator, I consistently delivered solutions that elevated the university's online presence and bolstered its brand reputation. My biggest accomplishment includes a comprehensive overhaul of the University of Houston's homepage, implementing an expansive mega menu feature. This strategic enhancement not only modernized the website's interface but also facilitated seamless navigation for visitors, resulting in an increase in user engagement.

### FRONT-END ENGINEER

Warner Bros. Discovery | Jan 2022 – March 2023

During my tenure at Discovery, I had the opportunity to work on a range of projects, including building advertising products to increase traffic to clients' websites. Additionally, I generated custom sweepstakes that were seamlessly integrated with third-party forms. One of my notable accomplishments was independently developing interactive and animated articles that garnered positive feedback from both colleagues and clients. I also contributed to content management for the corporate site, assisting with tasks such as updating, refactoring, and creating new pages.

### FRONT-END DEVELOPER

Snappy Kraken | Nov 2018 – Aug 2021

During my time at SnappyKraken, I had the opportunity to collaborate remotely with the product, design, and engineering teams to create responsive products with marketing-driven UI/UX. My contributions included developing responsive web products as part of SnappyKraken's comprehensive catalog of customizable marketing campaigns, which helped hundreds of financial advisors improve their businesses and expand their customer base. Additionally, I provided training and guidance to junior-level developers. I also provided troubleshooting and support to ensure that projects were delivered on time and met client expectations as well as business objectives.

### FRONT-END DEVELOPER

Landry's Inc | Feb 2018 – Nov 2018

In my role, I collaborated with the marketing team to oversee content management for a portfolio of over 60 websites across a broad spectrum of industries. This role required me to be a self-starter and manage my own time and responsibilities, while also being an effective team member during collaborative projects. I played an integral role in the development of new features and designs by helping to architect solutions that met the business' needs. Additionally, I gained valuable experience working with various Content Management Systems, including WordPress.
